REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The instant claims (product-by-process claims) directed to a low melting point tin salt of aliphatic monocarboxylic acid are novel and unobvious over the prior art of record. Applicants have shown by way of examples that the step of contacting an oxygen supplying substance with a tin salt produces a low melting product, which is substantially different from the product formed without the oxygen treatment.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Priority

2. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.
